Projects

HackOff v4.0   *HackOffv4.0* ↗

- Developed a responsive website using Next.js, HTML, and CSS for Hackoff, a global 36-hour hackathon with Major League Hacking.
- Reduced website load time by 50%, enhancing user experience and accessibility.

DigiSwasth   *DigiSwasth* ↗

- Developed a virtual hospital app using FastAPI (backend) and Next.js (frontend) with separate login portals for admins, patients, and doctors.
- Implemented patient profiles, medical history input, chatbot-based diagnosis, appointment scheduling, and online medicine ordering.

Resume Analyzer   *Resume-Analyzer* ↗

- Built an AI-powered Resume Analyzer using Next.js and TypeScript, leveraging Google's Gemini Pro AI for real-time resume evaluation.
- Designed with structured insights, toast notifications, loading states, and robust error handling for an efficient and user-friendly experience.

Sociovate   *Sociovate* ↗

- Built a collaborative innovation platform aimed at fostering social impact through technology-driven solutions.
- Developed using JavaScript and CSS, optimizing for performance and user engagement.

Relevant Achievements

Co-Secretary at IET-VIT   *2024-2025*

- Organized and managed multiple technical events, hackathons, and workshops, fostering innovation and collaboration.

Projects Domain Member at Apple Developers Group - VIT   *2022-2024*

- Contributed to iOS and macOS development projects, gaining hands-on experience with Swift and Apple's ecosystem.
